EDUCATION

University of Management and Technology (UMT)

Bachelor of Science in Computer Science

Lahore, Pakistan

Aug. 2019 - May 2023

- Relevant Coursework: Data Structures, Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering
- Final Year Project: AutoPostMD. Built social posting automation with scheduled workflows across Facebook, Instagram, and LinkedIn

EXPERIENCE

CEO

aisolhub.com

2024 - Present

Remote, US / UK / Europe

- Run aisolhub. Build AI agents, n8n workflows, CRM sync, and WhatsApp automation for businesses that already have a product or site
- Set up AI phone receptionists that answer calls, book appointments, and log the call in the CRM
- Build AI agents on the client's own data for support, lead replies, and daily summaries
- Automate lead capture, scoring, and follow-up in HubSpot, GoHighLevel, Zoho, and Salesforce
- Connect n8n, Make, and Zapier to WhatsApp, Slack, Shopify, Stripe, and social APIs
- Run a free 20-minute audit, then deliver a fixed-price build and keep the workflows running

Backend Engineer

Arbisoft

June 2024 - December 2024

Lahore, Pakistan

- Built APIs with NestJS and TypeScript
- Set up login with OAuth 2.0, JWT, and session handling
- Built live chat with WebSockets and Redis
- Designed PostgreSQL schemas with Prisma and sped up slow queries
- Wrote unit and integration tests with Jest (85%+ coverage)

Associate Software Engineer

Kwanso

June 2023 - June 2024

Lahore, Pakistan

- Built backend services with Node.js, Express, and NestJS
- Shipped REST APIs with validation, error handling, and Swagger docs
- Handled database migrations on PostgreSQL and MongoDB
- Solved 300+ LeetCode problems
- Took part in code reviews

PROJECTS

prmpmtree | AI inbox agents, Autopilot, Ask mode, Gmail

2026

- Built an AI inbox agent that puts every mailbox in one place and handles the mail for you
- Autopilot mode reads, drafts, flags, and archives on its own. Ask mode waits, then acts when you ask

PeptideX Research | WhatsApp agent, Shopify, n8n, CRM

2026

- Built shop automations for a research peptides store: WhatsApp replies, stock alerts, and abandoned-cart follow-up
- Added an AI support agent on product and COA questions, plus order routing and review-request workflows

Astor Legal | WhatsApp agent, CRM, intake workflows, n8n

2026

- Built intake automation for a Sydney criminal law firm: web enquiry into the CRM, consult booking, and WhatsApp follow-up
- Routed new cases to a senior-lawyer slot so no enquiry sits overnight

Terzo.ai | AI agents, RAG, n8n, Slack alerts

2024

- Built an AI agent over vendor contracts so the team can ask questions in chat instead of searching dashboards
- Set up n8n workflows for renewal and expiry alerts to Slack and email

SimplyFlow | n8n workflows, AI agents, LangGraph

2025

- Built the automation layer: n8n workflows for daily ops plus AI agents that pick the next step
- Wired workflows to start when data changes, not when someone clicks a button

Qobrix | CRM automation, lead workflows, n8n

2025

- Automated listing publish and CRM-to-web sync so agents do not upload the same property three times

Built lead scoring and assignment workflows with retries when a portal API fails	
GuardXP AI agents, n8n, incident workflows	2025 - 2026
- Automated guard scheduling, incident intake, and GPS alerts - Built an AI agent that drafts the incident summary after each report	
AutoPostMD Social automation, n8n, Facebook / Instagram / LinkedIn	2023
- Built posting workflows that publish to Facebook, Instagram, LinkedIn, YouTube, and TikTok on a schedule - Added retries so a quota limit on one network does not stop the rest of the queue	
SafeStreet Ops automation, n8n, alerts	2025
- Automated incident intake, proximity alerts, and routing to the right moderator - Removed the spreadsheet step between a report coming in and ops seeing it	
4Corners WhatsApp agent, CRM, booking workflows	2024
- Built the front-desk automation: website chat into the CRM, appointment booking, and WhatsApp follow-up - Synced intake fields before the call so no enquiry sits overnight	
FitnessAds.ai AI agents, RAG, n8n	2025 - 2026
- Built an AI agent that writes ads from each gym's offer docs - Added a consult agent for trainers and a daily campaign summary workflow	
Primal Peps WhatsApp agent, Shopify, n8n, CRM	2025
- Built WhatsApp sales replies, abandoned-cart workflows, and low-stock alerts - Sent a morning inventory note so the shop is not run from a spreadsheet	
Tigerlabz AI support agent, n8n, stock workflows	2026
- Built an AI support agent trained on their lab docs for product and shipping questions - Automated order routing, stock sync, and post-delivery review requests	
Cypentra AI triage, lead workflows, CRM, n8n	2025
- Built lead scoring and assignment workflows for inbound security enquiries - Added an AI first-pass on tickets and a recurring client-report workflow	

TECHNICAL SKILLS

AI automation: AI agents, Autopilot / Ask mode, inbox agents, n8n workflows, WhatsApp agents, AI phone receptionist, CRM sync

Tools: n8n, LangChain, LangGraph, OpenAI, GoHighLevel, HubSpot, Zoho, Salesforce, Shopify, Stripe

Languages: TypeScript, JavaScript, SQL, Python, Bash

Backend: NestJS, Node.js, Express, PostgreSQL, MongoDB, Redis

Delivery: Docker, AWS, GitHub Actions, WhatsApp Business API, REST APIs, webhooks
